DEARTMENT MINUTES

A meeting was conducted among the members of the mathematics department on 17-12-2022 at 2.30 p.m.

The following matters were discussed and resolved.

1. To conduct national mathematics day on 22/12/2022.
2. To invite the guest for the mathematics day.
3. To conduct quiz, essay writing, and elocution competition on the eve of national mathematics day.
4. To distribute II, IV and VI semesters syllabus to the staff members.

PERMISSION LETTER

Uravakonda,
19 /12/2022.

To,
The principal,
Government Degree College,
Uravakonda.

Respected sir,

Sub: Department of Mathematics – Celebration of National Mathematics Day –
Permission – Request – Regd.

The Department of Mathematics wishes to celebrate National Mathematics Day on 22/12/2022 commemorating the birth anniversary of Sri Srinivasa Ramanujan, a legendary mathematician of our country. In this regard, permission maybe accorded.

Thanking you sir,

Yours faithfully,

In charge of the Department

CIRCULAR

All the students of I, II, and III B.Sc., MPC, MPCs, MSCs are informed that National Mathematics day will be celebrated on 22nd December on the eve of Sri Srinivasa Ramanujan birthday. The department of mathematics is conducting quiz, essay writing, and elocution competitions. Those who are interested to participate, they can enroll their names with B. Siva Prasad, Lecturer in mathematics and the prizes will be distributed on 22nd December.

BRIEF HISTORY OF SRINIVASA RAMANUJAN

Srinivasa Ramanujan, (born December 22, 1887, Erode, India died April 26, 1920, Kumbakonam), Indian mathematician whose contributions to the theory of numbers include pioneering discoveries of the properties of the partition function.

When he was 15 years old, he obtained a copy of George Shoobridge Carr's Synopsis of Elementary Results in Pure and Applied Mathematics, 2 vol. (1880–86). This collection of thousands of theorems many presented with only the briefest of proofs and with no material newer than 1860, aroused his genius. Having verified the results in Carr's book, Ramanujan went beyond it, developing his own theorems and ideas. In 1903 he secured a scholarship to the University of Madras but lost it the following year because he neglected all other studies in pursuit of Mathematics.

Ramanujan continued his work, without employment and living in the poorest circumstances. After marrying in 1909 he began a search for permanent employment that culminated in an interview with a government official, Ramachandra Rao. Impressed by Ramanujan's mathematical prowess, Rao supported his research for a time, but Ramanujan, unwilling to exist on charity, obtained a clerical post with the Madras Port Trust.

In 1911 Ramanujan published the first of his papers in the *Journal of the Indian Mathematical Society*. His genius slowly gained recognition, and in 1913 he began a correspondence with the British mathematician G.H. Hardy that led to a special scholarship from the University of Madras and a grant from Trinity College, Cambridge. Overcoming his religious objections, Ramanujan traveled to England in 1914, where Hardy tutored him and collaborated with him in some research.

Ramanujan's knowledge of mathematics (most of which he had worked out for himself) was startling. Although he was almost completely unaware of modern developments in mathematics, his mastery of continued fraction was unequalled by any living mathematician. He worked out the Riemann series, the elliptic integral hypergeometric series, the functional equations of the zeta function, and his own theory of divergent series, in which he found a value for the sum of such series using a technique he invented that came to be called Ramanujan summation. On the other

hand, he knew nothing of doubly periodic functions, the classical theory of quadratic forms, or Cauchy's theorem, and he had only the most nebulous idea of what constitutes a mathematical proof. Though brilliant, many of his theorems on the theory of prime numbers were wrong

A BRIEF REPORT OF NATIONAL MATHEMATICS DAY

With active participation of students, the Department of Mathematics conducted National Mathematics Day on 22/12/2022 commemorating the birth anniversary of a great mathematician Sri Srinivasa Ramanujan. The principal Dr. G. Ramakrishna sir, speaking on the occasion, explained the significant contribution of Ramanujan for the mathematical theorems and paved for mathematical applications in research. Dr. K.M. Rajesh In charge of the department if mathematics briefly revealed the biography of Ramanujan. Later prizes were distributed to the winners of the competitions.

FEED BACK BY STUDENTS

I am really happy to become part of national mathematics day and learned more about Ramanujan

B. Rudraiah III MSCs

Ramanujans life is a source of inspiration to everyone and glad that he brought name and flame to our country.

P. Lakshmi III MPC

I feel proud to say that Sri Srinivasa Ramanujan is an Indian and responsible for the evolution of many new theorems in mathematics.

T. Dadajigunu III MPCs

Respected Sir,

Sub: Department of Mathematics - Educational
Tour - BSc MPC (M) - Permission - request
regd.

I humbly submit that An educational tour for
BSc MPC (M) students is planned to visit
Smt Sarala Devi Sahaschandra Aggarwal Govt.
Grade College (Autonomous), Bellary and
Vijayanagar Sri Chaitanya University, Bellary
to make them understand cooperative learning
strategies and conceptual understanding. It
is also intended for learning new student centric
methods.

Hence I solicit your good selves to
accord permission for our educational tour.
A list of students is here with appended for your
kind perusal.

Thanking you Sir

Yours faithfully,
B. Suresh Babu

A REPORT ON EDUCATIONAL TOUR

The department of Mathematics, Government Degree College Uravakonda always strives hard to provide quality and need based education to its stakeholders. To achieve its objective, the students are involved in co-curricular and extra-curricular activities so as to encourage them to face the Global challenges confidently. In order to provide practical experience of new strategies of learning, gain knowledge on research and expose the students of rural background to Outer world, the department of Mathematics Planned One Day educational tour to S.S.A. Government first grade college (Autonomous) Bellary and Vijayanagara Sri Krishnadevaraya University, Bellary.

As part of its planning B. Siva Prasad Faculty of the department of Mathematics and the students of II BSc MPC (T.M.) visited Bellary on 08-07-2022. Before proceeding towards college, the faculty and students visited popular devotional Durgamma temple. After having Darshan of goddess Durgamma, we went to S.S.A. Government first Grade College. There the principal, staff and students warmly welcomed us.

AT DURGAMMA TEMPLE

Inaugural function of MOU:

Inaugural function of MOU was held in the auditorium. In her initial remarks, the principal Dr. R M Sridevi briefly explained the history and the present status of the college. According to madam, SSA Govt. first grade College (autonomous) ranks No. 1 in the state of Karnataka and 14th rank in all India level in terms of its strength and Excellency in education. Having attained “A” grade in NAAC accreditation, the college enjoys autonomous status. The principal madam also revealed the endeavours of the staff to convert College into cluster University since the college strength is around 5600. In our observation we also found relentless efforts of the staff and students in getting good grade in NAAC reaccreditation cycle III.

GOVERNMENT DEGREE COLLEGE

URAVAKONDA - 515 812

(Accredited by NAAC with B Grade)

Affiliated to S K. University, Ananthapuramu

Emphasizing the need of MOU's between the higher education institutes, the principal madam expressed immense happiness to have MOU between the department of Mathematics Government Degree College, Uravakonda and the department of Mathematics, S.S.A. Government first Grade College, Bellary. As per MOU the students of both colleges update their knowledge of Mathematics in various aspects and develop knowledge about various applications of Mathematics in different fields and research. It is also intended for providing need based knowledge in the areas of practical aspects of Mathematics in daily life and organizing guest lectures.

EXCHAGE OF MOU

GOVERNMENT DEGREE COLLEGE

URAVAKONDA - 515 812

(Accredited by NAAC with B Grade)

Affiliated to S K. University, Ananthapuramu

Students Interaction:

The students of both colleges interacted with one another on teaching, learning and evaluation methods followed in their respective colleges. Student's centric method is being adopted in both the colleges and internal evaluation is based on students' performance in internal exams, seminars and project works. They felt the need of developing communication skills analytical skills and soft skills to face highly competitive global market without any difficulty.

STUDENTS INTERACTION

GOVERNMENT DEGREE COLLEGE

URAVAKONDA - 515 812

(Accredited by NAAC with B Grade)

Affiliated to S K. University, Ananthapuramu

Students Seminars:

Our Students P. Lakshmi and K. Kavya gave seminars on Legrange's Mean value Theorem and Continuity respectively. Without any fear our students exhibited their talent. This is an innovative practice that our students gave seminars in other college. They received lot appreciation from the faculty of department of Mathematics and good responds from the students of S.S.A. College.

SEMINAR BY P. LAKSHMI

SEMINAR BY K. KAVYA

Hospitality:

We never forget the hospitality of principal madam, faculty of department of English and students. They provided snacks and Tea during interaction session. Delicious Lunch was also provided and we are short of words to describe their affection and reception. We expressed deep sense of gratitude and left for University visit.

A visit to Vijayanagara Sri Krishnadevaraya University Bellary:

Mathematics Lab:

We visited mathematics lab at university. PG Students explained how problems can be solved easily with computer applications. ICT based learning is useful for acquiring more knowledge. Interaction with them helped our students to understand new concepts in mathematics.

STUDENTS IN MATHEMATICS LAB

University library:

Vijayanagara Sri Krishnadevaraya University, Bellary has a huge library having lakhs of books of all the subjects. Established in a serene environment, it provides latest versions of different subjects and congenial environment is created for student s. Within the library, there are different cells including research cell, competition cell and Publication cell. The University librarian Dr. Basavana Gowda took us around the library and explained the significance of library in acquiring knowledge. Our students visited different cells and interacted with the students of University.

Students Feed Back:

An Educational Tour organized by department of Mathematics really helped me to understand learning strategies of students of other states. My visit to S.S.A. Government first Grade College, Bellary enlightened me a lot and gained huge experience in assignment writing and project work. Professors and research scholars at university have explained the methods of research and importance of life skills in reaching desired goals.

P. Lakshmi

I am very thankful to our sirs for making me part of educational tour. This tour is really thought provoking it. Helped me to assess and analyse different learning techniques in other colleges. I felt very happy to visit different departments in the university. The librarian of the university with lot of patience took us around different book sections and explained latest arrivals in various subjects. It is really a memorable tour.

K. Kavya

I am short of words to describe our educational tour. It is really wonderful and enlightening too. The faculty and students of S.S.A. College provided very good hospitality. The interaction with students made me to comprehend the ways of doing project work and learning methods. Academic ambience in the university campus is also inspiring and the library is a treasure of knowledge.

P. Rama Devi

GOVERNMENT DEGREE COLLEGE

URAVAKONDA - 515 812

(Accredited by NAAC with B Grade)

Affiliated to S K. University, Ananthapuramu

It gives me immense pleasure to share my feedback on educational tour. I am very much impressed by the attitude of principal madam, staff and students of S.S.A. College the hospitality we received is unforgettable. I gained lot of confidence after the tour.

G. Kumar

During educational tour, I observed many things. I learned a lot about project works as well as the value of soft skills. At university I observed commitment of PG Students and sincerity of research scholars. I will do research after my graduation.

E. Siddappa

I am very much satisfied and learned a lot in the tour. The tour inspired me to develop inter personal skills which are very much required to secure a good job. Interaction with students of S.S.A. College made me to learn different methods of learning. University professors also encouraged me to study post-graduation and motivated me to do research in the area of my interest.

K. Sunitha.

One day educational tour remains memorable throughout my life as it inspired me in many aspects. It made me to speak with others without any fear. I also learned how to develop communication skills and human relations.

J. Hemalatha

GOVERNMENT DEGREE COLLEGE

URAVAKONDA - 515 812

(Accredited by NAAC with B Grade)
Affiliated to S K. University, Ananthapuramu

I express my gratefulness to our principal Dr.G.Ramakrishna sir for encouraging us and giving permission for educational tour. Because of this tour, I learned many things including how to give seminar, how to develop soft skills and how to reach our goals.

C. Narendhra Babu

I am very much thankful to the faculty of department of Mathematics for organising such a wonderful tour. The tour considerably enhanced my confidence and created awareness on learning strategies. I found new ways of solving mathematical problems in computer at university.

T.B. Gangadhara

One educational tour remains memorable in my student life as it encouraged me to reach my ambition without any fear. In my observation I realised how public speaking skills help us in our academic pursuits. The culture and traditions of Karnataka fascinated me. Really this tour provided me awareness on various academic activities.

D. Saritha

Conclusion:

We successfully completed our one day educational tour. It gave much needed boost to our student's confidence levels to speak without any fear. Our students got enlightenment on assignment writing, record writing and project work. Interaction with the students of other state also helped them to know more about learning strategies and importance of communication skills. Our student's interaction with research scholars at University inspired them to pursue higher studies and research. University professors motivated our students and explained the relevance of life skills in reaching desired goals. Students in their feedback expressed their gratitude to our principal Dr G Ramakrishna for encouraging and giving permission for the tour and they also thanked the faculty, department of Mathematics and English for arranging such a memorable and enlightening tour.

GOVERNMENT DEGREE COLLEGE URAVAKONDA - 515 812

(Accredited by NAAC with B Grade)
Affiliated to S K. University, Ananthapuramu

GOVERNMENT DEGREE COLLEGE, URAVAKONDA DEPARTMENT OF MATHEMATICS QUESTION PAPER FOR CERTIFICATE COURSE

Time: 20 min

1. 6, 9, 12, 15, 18, 21 -----
A). 26 B). 28 C). 33 D). 24
2. 195, 190, 180, 175, 165, 160, -----
A). 155 B). 158 C). 150 D). 140
3. 220, 216, 208, 196, 180, -----
A). 160 B). 165 C). 168 D). 150
4. 81, 27, 9, -----, 1.
A). 12 B). 16 C). 11 D). 3
5. 2, 4, 3, 9, 4, 16, 5, -----, -----, 36.
A). 25, 6 B). 6, 26 C). 25, 6 D). 14, 10
6. If in a certain code 'INTELLIGENCE' is written as 'ETNIGILLECNE' then how can 'MATHEMATICAL' be written in the same code?
A). AMHTMETACILA B). TAMMEHTALAC
C). HTAMTAMELACI D). LACITAMEHTAC
7. If CUP = 40, then KITE = ?
A). 10 B). 20 C). 30 D). 45
8. In a certain code language, FILE is written as 7465 and IDEAL is written as 43586. How will DEAF be written in that code language?
A). 3478 B). 3588 C). 3587 D). 4578

GOVERNMENT DEGREE COLLEGE URAVAKONDA - 515 812

(Accredited by NAAC with B Grade)
Affiliated to S K. University, Ananthapuramu

9. In a certain code language 481 means 'sky is blue', 246 means 'sea is deep' and 698 means 'sea looks blue'. What is the code for 'blue'?

- A). 1 B). 6 C). 8 D). 9

10. If A+B means A is the mother of B; A-B means A is the brother of B; A/B means A is the father of B and A X B means A is a sister of B, which of the following shows that P is the maternal uncle of Q

- A). Q - N + M x P B). P + S x N - Q C). P - M + N x Q D). Q - S / P

11. The angle between the minute hand and the hour hand of a clock when the time is 8.30, is

- A). 60 B). 70 C). 75 D). 80

12. A clock is set right at 5 a.m. The clock loses 16 minutes in 24 hours. What will be the true time when the clock indicates 10 p.m. on 4th day?

- A). 11pm B). 12 pm C). 1 pm D). 2pm

13. At what time between 5 and 6 'o' clock are the hands of 3 minutes apart?

- A). 24 min B). 12 min C). 13 min D). 14 min

14. Find the number of odd days in 1887 years?

- A). 8 days B). 7 days C). 6 days D). 5 days

15. Find the day of 15th October 1931 which is the birth date of Sri A.P.J. Abdul Kalam.

- A). Monday B). Friday C). Thursday D). Saturday

16. What will be the day on 26th July 2024?

- A). Friday B). Saturday C). Monday D). Wednesday

17. If January 1, 2000, is Saturday then what will be the day on Jan 1, 2003?

- A). Wednesday B). Friday C). Saturday D). Thursday

18. August 15th, 2022 was Monday, what will be the day on August 15th, 2026?

- A). Monday B). Tuesday C). Saturday D). Friday

19. Find the wrong number of the series 5, 7, 21, 23, 69, 70, 213?

- A). 23 B). 7 C). 71 D). 69

20. Find the wrong number of the series 30, 42, 56, 76, 90, 110?

- A). 76 B). 56 C). 110 D). 42

GOVERNMENT DEGREE COLLEGE, URAVAKONDA

DEPARTMENT OF MATHEMATICS

QUIZ

1. Angles greater than 90 degrees but less than 180 degrees are called?

Answer: Obtuse angles

2. How many sides are there in a Heptagon?

Answer: 7

3. Solid shape that has four equal triangles?

Answer: Tetrahedron

4. Who discovered \oint the Contour Integral sign?

Answer: Arnold Sommerfeld

5. Who discovered Existential Quantifier \exists (there exists)?

Answer: Giuseppe Peano

6. Who invented \pm Plus-Minus sign?

Answer: William Oughtred

7. Father of Cryptology?

Answer: Leon Battista Alberti

8. What is the shape of a Brick in India?

Answer: Cuboid

9. Where did the “Magic Square” originate?

Answer: Ancient China

10. Which movie is based on Srinivasa Ramanujan?

Answer: The Man Who Knew Infinity

11. Who invented “ ∇ ” the Nabla symbol?

Answer: William Rowan Hamilton

12. Who is known as Human Computer?
Answer: Shakuntala Devi
13. Name of the symbol ϕ ?
Answer: Golden ratio
14. What is the other name of the Perimeter of a Circle?
Answer: Circumference
15. Who discovered the Proportionality Sign \propto ?
Answer: William Emerson (1768)
16. Who discovered Partial Derivatives?
Answer: Adrien-Marie Legendre (1786)
17. Who discovered Gamma-Function “ Γ ” ?
Answer: Leonhard Euler
18. Who discovered Laplace Transform?
Answer: Pierre-Simon Laplace
19. Who invented the Factorial symbol “!” ?
Answer: Christian Kramp
20. Who is the Father of Analytic Geometry?
Answer: René Descartes and Pierre de Fermat
21. Who invented “ \int ” Integral sign?
Answer: Gottfried Leibniz
22. Who is the “Father of Mathematics”?
Answer: Archimedes
23. Who discovered an easy method to find all the Prime Numbers?
Answer: Eratosthenes
24. What is the average of the first 50 Natural Numbers?
Answer: 25.5
25. What is an angle greater than 180 degrees but less than 360 degrees called?
Answer: Reflex angle
26. Who invented the Radical symbol $\sqrt{}$ (square root)?
Answer: René Descartes

27. Who discovered " \forall " universal quantifier (for all)?

Answer: Gerhard Gentzen

28. Who created the Theory of Probability?

Answer: Blaise Pascal and Pierre de Fermat

29. Who was the first person to use Algebra for solving Astronomical Problems?

Answer: Brahmagupta (7th century)

30. Who discovered Binomial Theorem?

Answer: Al-Karaji

31. Who discovered Divergence Theorem?

Answer: Joseph Louis Lagrange

32. Who discovered Taylor Series?

Answer: Brook Taylor in 1712

33. Who developed the Analytic number theory?

Answer: Peter Gustav Lejeune Dirichlet

34. Who proved that the value of π lies between $3 + \frac{1}{7}$ (approx. 3.1429) & $3 + \frac{10}{7}$ (approx. 3.1408)?

Answer: Archimedes (260 BC)

35. Who Proved that " π " Pi is Irrational?

Answer: Johann Heinrich Lambert

36. Find the next number in the series 125, 80, 45, 20,

Ans: 5

37. $(51 + 52 + 53 + \dots + 100)$ is equal to-----

A). 3775

38). What least number must be subtracted from 13601, so that the remainder is divisible by 87 ?

A). 29

39).How many terms are in the G.P. 3, 6, 12, 24,, 384

A). 8

40. If $\log 2 = 0.3010$ and $\log 3 = 0.4771$, the values of $\log_5 512$ is

A). 3.875

41. A grocer has a sale of Rs 6435, Rs. 6927, Rs. 6855, Rs. 7230 and Rs. 6562 for 5 consecutive months. How much sale must he have in the sixth month so that he gets an average sale of Rs, 6500

A). 4991

42). The average of 7 consecutive numbers is 20. The largest of these numbers is

A). 23

43). What was the day on 15th august 1947-----

A). Friday

44). Today is Monday. After 61 days, it will be-----

Saturday

45). The last day of a century cannot be---

A). Tuesday

46). What was the day of the week on, 16th July, 1776?

A). Tuesday

47. At what time between 2 and 3 o'clock will the hands of a clock be together

A). $(10 + 10/11)$ min past 2

48). If 20% of $a = b$, then $b\%$ of 20 is the same as :

A). 4% of a

49. A man spends 35% of his income on food, 25% on children's education and 80% of the remaining on house rent. What percent of his income he is left with ?

A). 8 %

50). A's salary is 40% of B's salary which is 25% of C's salary. What percentage of C's salary is A's salary ?

A). 10

Quiz Objectives and Report

Quiz programmes give an opportunity and active involvement of the students at their college level programmes. Quiz competitions are always interesting and informative which provide excitement among the students and also make them aware of subject knowledge. With practicing quizzes, students can do critical thinking, get into a habit of innovative learning and develop analytical attitude.

Brief Report

The Department of Commerce conducted Quiz programme on different General mathematics for the I, II & III B.Sc., Students on 21st December, 2022. This quiz tested the students understanding in different mathematics topic. 35 students actively participated in this activity. The quiz was conducted in five rounds. In each round 14 questions were asked. The duration of each question is 15 seconds. Each question carries 1 marks. Group G got 35 marks. And Group C got only 25 marks. As per score Group G became the winner, Dr. K.M Rajesh, in charge of the Department acted as Judge for the overall programme. Department faculty B. Siva Prasad, M. Ramesh also participated in the activity and gave some suggestions on this occasion. winners and runners were distributed prizes on the eve of National Mathematic Day on 22/12/2022.

Feedback of the students

I felt very happy. The programme improved my confidence.

D. Saritha III Mpc

Really speaking Quiz programme brought awareness on General Maths and gave inspiration for active participation in competitions.

K. charan kumar, II Mpcs

I am very thankful to Department of Mathematics for conducting Quiz programme. This kind of activity generates interest in the subject.

V. Gopichand, II Mpcs

Quiz programme on General Mathematics surely helps us in competitive exams. This will also help us to write Entrance exams.

REPORT

Introduction:

The Workshop on Communication Skills for Jobs took place on [insert date] at [insert location]. The workshop aimed to equip participants with essential communication skills necessary for success in the professional world. The focus was on enhancing verbal, nonverbal, written, and interpersonal communication abilities to improve participants' job prospects and performance.

Sessions and Topics Covered:

The workshop was structured around several interactive sessions, each targeting specific aspects of communication skills:

In Session-1: Importance of Communication Skills:

An overview of why effective communication skills are crucial in the workplace, highlighting their impact on job interviews, teamwork, client interactions, and career advancement was discussed.

In Session-2: Verbal Communication:

The techniques for clear and concise verbal communication, including active listening, speaking confidently, structuring messages, and handling questions effectively were explained.

In Session-3: Nonverbal Communication:

Exploring the significance of body language, facial expressions, gestures, and eye contact in conveying messages accurately and building rapport was delivered.

In Session-4: Written Communication:

Tips for crafting professional emails, memos, reports, and documents. Emphasis on clarity, coherence, tone, and appropriate formatting were explored.

Presentation Skills:

Guidance on structuring and delivering effective presentations. Addressing techniques to engage an audience, manage nerves, and use visual aids proficiently.

Interpersonal Skills:

Strategies for building positive relationships in the workplace. Covered topics included active listening, empathy, conflict resolution, and effective collaboration.

Job Interview Communication:

Role-playing mock interviews to demonstrate effective communication during job interviews. Discussion on creating a strong first impression, answering questions, and showcasing relevant skills.

Workshops and Activities:

The workshop included interactive exercises, role-playing scenarios, and group discussions to provide participants with practical experience in applying the communication skills discussed. Participants had the opportunity to practice delivering presentations, engaging in mock interviews, and providing constructive feedback to peers.

Guest Speakers:

Esteemed professionals from various industries shared their insights on the importance of communication skills in different job roles. They offered real-world examples and anecdotes, highlighting how effective communication had contributed to their own career success.

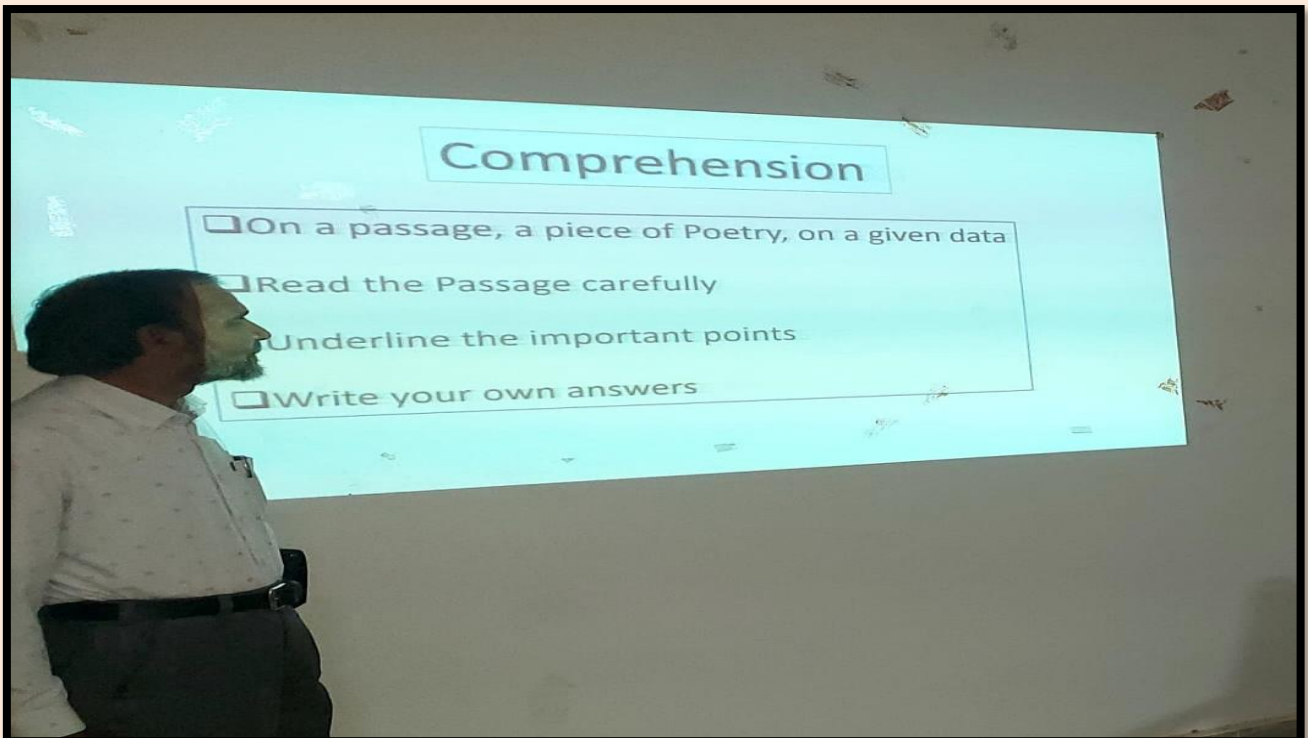

Conclusion:

The Workshop on Communication Skills for Jobs proved to be a valuable platform for participants to refine and strengthen their communication abilities. The sessions were designed to cater to participants from diverse backgrounds and career aspirations. The interactive nature of the workshop encouraged active engagement and provided participants with a safe space to practice and improve their skills.

Feedback from participants was overwhelmingly positive, with many expressing newfound confidence in their communication abilities. They noted that the workshop had equipped them with practical tools to excel in interviews, workplace interactions, and various professional communication scenarios.

Overall, the workshop successfully met its objectives of enhancing participants' communication skills, contributing to their overall employability, and fostering their professional growth. It served as a reminder that effective communication is a cornerstone of success in the modern job market.

REPORT

Career Guidance for the B.Sc., Students

1. M.Sc. (Master of Science)

Pursuing M.Sc. for higher studies after graduating with a B.Sc. degree is the most obvious choice. It provides specialization in Mathematics, Physics, Chemistry, Computer Science, Statistics, etc. Talking about the career options, the job roles after M.Sc. include

- Professor
- Lab Technician
- Assistant Professor
- Chemical Analyst
- Food and Drug Inspector
- Biochemist, Statistician
- Mathematician
- Research Scientist
- Junior Research Fellow

2. MCA (Master of Computer Application)

MCA is a postgraduate level program like M.Sc. that focuses on Computer Science. Some of the MCA specialization fields include:

- Systems Management
- Systems Development
- Systems Engineering

GOVERNMENT DEGREE COLLEGE

URAVAKONDA - 515 812

(Accredited by NAAC with B Grade)

Affiliated to S K. University, Ananthapuramu

3. MBA (Master of Business Administration)

A Master of Business Administration (MBA) degree is a professional degree that seeks to provide academic and practical training in business administration.

Some of the high-profile managerial positions available to MBA graduates include:

- Human Resources Manager
- Operations Manager
- Product Manager
- Finance Manager
- Marketing Manager
- Project Managers

4. B.Ed. (Bachelor of Education)

The B.Ed. is one of the most sought-after career options after B.Sc. B.Ed. degrees are a good career choice for students who can be competent teachers and professors.

It trains graduates in various and unique pedagogical strategies to further boost their teaching abilities. B.Ed. programs assist persons with their skills and broaden their information to provide excellent education to their pupils. Teaching provides employment security, job satisfaction, a good salary, and a flexible schedule.

5. Appear for Government Exams

After graduating with a B.Sc. degree, you can appear for several government exams like:

- UPSC
- IAF
- IFS exams
- RBI exams
- AIIMS - Nursing Officer
- IARI-Laboratory Assistant
- LIC-AAO and SBI PO

Selection in these government exams will brighten your future, and you will have a successful career.

GOVERNMENT DEGREE COLLEGE

URAVAKONDA - 515 812

(Accredited by NAAC with B Grade)

Affiliated to S K. University, Ananthapuramu

6. Technical Short Term Courses like PGDM

After graduating with a BSc degree, another career option is short-term technical courses. That offers specialization in a particular field.

Some of the short-term courses offered are:

- Post Graduate Diploma in Management (PGDM)
- Business Accounting and Taxation (BAT)
- Certified Financial Planner (CFP)
- Data Visualization
- Diploma in Digital Marketing and Certificate Program in Data Science.

7. LLM

LLM or Master of Laws is yet another career option after pursuing B.Sc. LLM is a postgraduate degree designed to enhance your academic legal knowledge, allowing you to focus on specific areas of interest.

Career Opportunities after B.Sc.

B.Sc. graduates have several career opportunities. After pursuing a particular course from the above-given options, graduates or postgraduates can look for employment opportunities in the following sectors depending upon their skills, specialization, and field of interest.

Following are the career opportunities you can choose from:

- Oil Industry
- Agriculture Industry
- Educational Institutes
- Food Institutes
- Space Research Institutes
- Hospitals
- Health Care Providers
- Chemical Industry
- Testing Laboratories
- Industrial Laboratories

- Research Firms
- Biotechnology Firms
- Forest Services
- Wildlife and Fishery Departments

Conclusion

After completing your B.Sc., there are numerous courses, and you must select the appropriate one. To summarize, a B.Sc. is a highly promising professional route, and as you can see, there are many employment opportunities following a B.Sc.! You only need to identify your areas of interest and select a specialized course accordingly.

If you are looking to give an extra boost to your career and learn from the best, Simplilearn is your one-stop solution. You should consider Simplilearn for online courses. It offers free courses that can help you learn and earn better. Now, you can avail of these courses for free and get the benefit of remote learning from the comfort of your home.

Exact linear differential Equation

$$Mdx + Ndy = 0$$

Where M and N are functions of x, y then

$\frac{\partial M}{\partial y} = \frac{\partial N}{\partial x}$ is called Exact differential equation.

Method of Solving:-

* find $\frac{\partial M}{\partial y} \neq \frac{\partial N}{\partial x}$

* $\frac{\partial M}{\partial y} = \frac{\partial N}{\partial x}$ Exact differential Eq?

* General sol: $\int Mdx + \int N(\text{without involving } x)dy + C$

Example: Solve $(x+2y-3)dy - (2x-y+1)dx = 0$.

sol) Given: $(x+2y-3)dy - (2x-y+1)dx$

$$\Rightarrow -(2x-y+1)dx + (x+2y-3)dy = 0$$

$$\frac{\partial M}{\partial y} = \frac{\partial (-2x+y-1)}{\partial y} = -1 \quad \frac{\partial N}{\partial x} = \frac{\partial (x+2y-3)}{\partial x} = 1$$

General sol: $\int Mdx + \int Ndy + C$

$$= \int (-2x+y-1)dx + \int (2y-3)dy + C$$

$$= -x^2 + xy - x + y^2 - 3y = C +$$

Gauss's Divergence Theorem :-

Let 's' be a closed surface enclosed a volume V. If F is a continuously differentiable vector point function, then $\int_V \text{div} F \, dV = \int_S F \cdot N \, dS$

(A.U. M14, SK.U M13, M14, O.U. M15, II, A, N.U. II, O4, 95, S.V. M14, M12, 000, 01)

where N is the outward drawn unit normal vector at any point of S .

* Cartesian form :-

Let $F = F_1 i + F_2 j + F_3 k$ and $N = i \cos \alpha + j \cos \beta + k \cos \gamma$ where $\cos \alpha, \cos \beta, \cos \gamma$ are the direction cosines.

$$F \cdot N = F_1 \cos \alpha + F_2 \cos \beta + F_3 \cos \gamma$$

$$\text{Also } \text{div} F = \nabla \cdot F = \frac{\partial F_1}{\partial x} + \frac{\partial F_2}{\partial y} + \frac{\partial F_3}{\partial z}$$

Hence the divergence theorem can be written as

$$\iiint_V \left[\frac{\partial F_1}{\partial x} + \frac{\partial F_2}{\partial y} + \frac{\partial F_3}{\partial z} \right] dx dy dz$$

$$= \int_S (F_1 \cos \alpha + F_2 \cos \beta + F_3 \cos \gamma) dS$$

$$= \int_S (F_1 dy dz + F_2 dz dx + F_3 dx dy)$$

Name : Dada Jigunu

class : III mpc (V sem)

Topic : First shifting theorem

College : Govt. Degree College Uravakonda.

Definition:-

Let a function $F(t)$ be continuous and defined for all positive values of t . The Laplace transformation or Laplace transform of $F(t)$ is defined by

$L[F(t)] = \int_0^{\infty} e^{-pt} F(t) dt$ where p is a parameter, and the transform is denoted by $f(p)$ or $\bar{F}(p)$.

First Translation OR Shifting Theorem

Theorem:- If $L[F(t)] = f(p)$ then (i) $L[e^{-at} F(t)] = f(p+a)$ (ii) $L[e^{at} F(t)] = f(p-a)$

Proof:- (i) By definition, $L[F(t)] = \int_0^{\infty} e^{-pt} F(t) dt$

$$L[e^{-at} F(t)] = \int_0^{\infty} e^{-pt} e^{-at} F(t) dt = \int_0^{\infty} e^{-(p+a)t} F(t) dt$$

$$= \int_0^{\infty} e^{-ut} F(t) dt \text{ where } u = p+a = f(u) = f(p+a)$$

Hence $L[e^{-at} F(t)] = f(p+a)$

(ii) Similarly we can prove that $L[e^{at} F(t)] = f(p-a)$

Note:- This theorem is referred to as the "shifting theorem" because multiplication of the given function $f(t)$ by e^{-at} changes the variable 'p' of the transform into 'p+a'.

Name : Dada Jigunu

class : III mpc (V sem)

Topic : First shifting theorem

College : Govt. Degree College Uravakonda.

Definition:-

Let a function $F(t)$ be continuous and defined for all positive values of t . The Laplace transformation or Laplace transform of $F(t)$ is defined by

$L[F(t)] = \int_0^{\infty} e^{-pt} F(t) dt$ where p is a parameter, and the transform is denoted by $f(p)$ or $\bar{F}(p)$.

First Translation OR Shifting Theorem

Theorem:- If $L[F(t)] = f(p)$ then (i) $L[e^{at} F(t)] = f(p+a)$ (ii) $L[e^{-at} F(t)] = f(p-a)$

Proof:- (i) By definition, $L[F(t)] = \int_0^{\infty} e^{-pt} F(t) dt$
 $L[e^{-at} F(t)] = \int_0^{\infty} e^{-pt} e^{-at} F(t) dt = \int_0^{\infty} e^{-(p+a)t} F(t) dt$
 $= \int_0^{\infty} e^{-ut} F(t) dt$ where $u = p+a = f(u) = f(p+a)$
Hence $L[e^{-at} F(t)] = f(p+a)$

(ii) Similarly we can prove that $L[e^{at} F(t)] = f(p-a)$

Note:- This theorem is referred to as the "shifting theorem" because multiplication of the given function $f(t)$ by e^{-at} changes the variable 'p' of the transform into 'p+a'.

(Accredited by NAAC with B Grade)
Affiliated to S K. University, Ananthapuramu

DEPARTMENT MINUTES

A meeting was conducted among the members of Mathematics department on 06/01/2023 at 2:00 PM.

The following matters were discussed and resolved

1. To conduct remedial class III and V semesters
2. To conduct the student seminars, quiz and group discussions
3. To conduct assignments

In charge of the Department

PERMISSION LETTER

To,
The Principal,
Government Degree College,
Uravakonda.

Respected Sir,

Sub: The Department of Mathematics – Request for Permission –
Remedial Classes — Reg.

Keeping in view the importance of Remedies Classes, the Department of Mathematics wishes to start Remedial Classes with the duration of 12 Days in Semester-5, 2022-23. In this regard, permission may be accorded to start Remedial Classes.

Thanking you sir,

Yours faithfully,

In charge of the Department
DEPT. OF MATHEMATICS
GOVT. DEGREE COLLEGE

Introduction:

Coaching Objectives:

A remedial coaching is to be organized as a fifteen days intensive coaching for students who have fallen behind in their studies and failed in concerned paper I every semester before the commencement of the supplementary exams. The main objective of the coaching is to join the students along with advanced learners.

The syllabus for the coaching is framed according to their standards so that they the subjects as a result they would pass in failed subjects.

The ultimate aim of remedial coaching is to help pupils who have fallen behind to learn to the best of their ability and to bring them back into the mainstream classes as far as possible.

Staff from mathematics department are involved in the remedial coaching.

Students are to be classified based on their performance as advanced learners, moderate learners and slow learners. The Remedial coaching will be given to slow and moderate learners whose performance is least semester exams conducted by affiliated universities.

The test will be conducted at the end of the coaching to assess their performance.
